

FARM TO BUSINESS

FARM FRESH PRODUCE FOR YOUR EMPLOYEES

Reward your employees with our Farm to Business program. We will deliver fresh picked produce to your business on weekly basis. See details below for more information.

We handpick each piece of produce that will be delivered to your business. Our fruits and vegetables are not organic, but our farming practices are simple. We limit the amount of spraying to a minimum and do not use any products on our food that we would not want to feed ourselves or our children. We believe in providing our community with fresh, flavorful, and quality produce.

We will deliver the fresh fruit and vegetables to you within 24 hours of being harvested from our fields. The produce will arrive at your designated location and be set out for your employees to grab what they feel they could use that week. Find out you need additional products? Upgrade your plan at any time.

Each week, your produce will be delivered with a newsletter providing information on the produce of the week, farmer notes, and a recipe highlighted one type of produce. Parents will enjoy having fresh produce to take home to their families, without having to make additional stops after work.

Fresh fruits and vegetables are proven to be beneficial and important for a healthy mind and body. The vitamins and nutrients that fresh produce provides can help prevent man health issues, such as but not limited to, heart disease, obesity, Type 2 diabetes, anxiety, and depression. Offering your employees, the chance to have quality produce delivered into work and get to know their farmer will help lead to happier and healthier employees.

Our fresh produce farm to business boxes will run for ten weeks. Starting the week of July 25th and running until the week of September 26th. Our delivery dates will vary depending on location.

*** Depending on mother nature and our geographic location, our peach crop can fall victim to a late spring frost. In this case, to serve our customers, we will purchase peaches from Georgia or the Carolinas. We have a few family farms that we work closely with to make it possible for our customers to enjoy peaches during the season. If we have peaches not grown on our farm, we are happy to provide them in your Farm to Business box and will be transparent that they are not peaches from our farm.

FARM TO BUSINESS REGISTRATION

Please complete and return the form below for the FARM TO BUSINESS participation.

Name of Business: _____

Business Address for Delivery: _____

Person of Contact for FARM TO BUSINESS Program: _____

Contact Phone Number: _____

Contact Email Address: _____

Please select the program your business will be participating in starting the week of July 25th and ending the week of September 26th:

Small Business Share - \$50/week
The small business share typically has 5 – 6 different items each week. The amount of each vegetable depends on the crop's season and harvest.

Medium Business Share - \$100/week
The medium share typically has 7-9 different types of vegetables, and the quantities of each vegetable are typically larger than the small business share.

Large Business Share - \$300/week
The Large Business share typically has 10 -12 different items and the quantities. A lot of times we will offer many different sizes in the large business share to accommodate the employees.

Example: Weekly Share \$100 X 10 weeks = \$1,000

I understand that Today's Harvest will work to provide weekly Farm to Business produce boxes for our company's employees. These shares will be provided each week and it is understood that varieties and items will vary depending on the growing seasons. The only product that could be from an offsite location for the Farm to Business shares would be peaches and have been explained. I approve my card listed below to be ran for the share selected above times 10 week.

Payment can be made in person, credit card or by check (Please make all checks payable to "Today's Harvest").
